[Vibratory conveyors](#)

Vibratory conveyors available in three different sizes – large, medium and small - suitable for all types of dry products – pulses, seeds, nuts, corn, rice etc.

Convey product through vibration. Low maintenance, easy to clean. Ideally suited as primary feeder in any kind of processing line.

Available in various widths and can include independent circuits. Capacity from 500/2000 kg/h up to 500/15000 kg/h.
